INSTRUCTIONS FOR USING  
MICROFILM/READER

1. Pull carrier forward.
2. Hold microfilm reel so film lead rolls to the right from the top.
3. Place the microfilm reel on the left spindle.
4. Insert the film lead under the black roller and between the two panes of glass.
5. Pinch the blue loader and hold until the film lead is automatically taken up by the right side reel and stops.
6. Slide carrier back until print is viewable.
7. Adjust image using the direction and rotation dials.
8. Turn rewind knob to left, till film has rewound onto original reel.
9. Pull microfilm reel from spindle.
